PROFESSIONAL SUMMARY

Results-driven **System Administrator, IT Support Specialist, and Cybersecurity Enthusiast** with hands-on experience in Windows Server administration, Active Directory, firewall management, VPN security, infrastructure monitoring, and enterprise IT support. Experienced in system hardening, patch management, PowerShell automation, ISO 27001 compliance, and technical troubleshooting. Recognized with the **Firewall Champion 2025 Award** for strengthening enterprise network security.

Strong foundation in **Cyber Security, Cloud Computing, Networking, and Web Application Development** with practical experience in developing secure applications using PHP and MySQL. Skilled in troubleshooting complex technical issues, maintaining IT infrastructure, and supporting organizational security operations.

TECHNICAL SKILLS

System Administration

- Windows Server Administration
- Active Directory (AD)
- Group Policy Management
- User & Access Management
- System Configuration & Maintenance
- Technical Support & IT Operations

Networking & Security

- Firewall Configuration & Hardening
- VPN Configuration
- Network Troubleshooting
- Patch Management
- Endpoint Security
- Access Control Management
- ISO 27001 Compliance
- Cybersecurity Fundamentals
- Network Security

Scripting & Automation

- PowerShell Scripting
- Automation of Administrative Tasks
- Python (Basic)

Monitoring & Troubleshooting

- Event Viewer
- Resource Monitor
- Performance Monitor
- System Diagnostics
- Incident Troubleshooting
- Hardware & Software Support

Cloud & Platforms

- AWS Fundamentals
- Cloud Computing Basics
- Windows Environment
- XAMPP Server

Programming & Development

- PHP
- MySQL
- HTML
- CSS
- JavaScript
- Front-End Development
- Secure Web Application Development

PROFESSIONAL EXPERIENCE

[Nakshatech Pvt Ltd](#) — System Administrator

Bengaluru, Karnataka, India

Aug 2024 – Present

- Managed and secured enterprise IT infrastructure using **Windows Server, Active Directory, and Group Policy Management**.
- Configured and maintained **firewall security policies, VPN connectivity, and endpoint protection systems**.

- Implemented **patch management and access control mechanisms** aligned with ISO 27001 security standards.
 - Automated administrative and monitoring tasks using **PowerShell scripting**, reducing manual workload and improving operational efficiency.
 - Monitored system performance, server health, and network availability using Event Viewer and performance monitoring tools.
 - Troubleshoot hardware, software, networking, and user-access issues across organizational infrastructure.
 - Participated in **ISO 27001 Internal Audits** and **ISO 9001 Quality Audits** to ensure compliance with enterprise standards.
 - Collaborated with IT teams to improve infrastructure reliability, security posture, and incident response.
 - Performed preventive maintenance and proactive monitoring to minimize downtime and improve system availability.
 - Awarded **Firewall Champion 2025** for excellence in securing enterprise firewall and network systems.
-

EDUCATION

Bachelor of Computer Applications (BCA) – Distinction

Srinivas University

Specialization: Cyber Security & Cloud Computing

Aug 2021 – May 2024

- Secured **7th Rank in University**
 - CGPA: 8.16
 - Focus Areas: Cybersecurity, Cloud Computing, Networking, Web Technologies, Database Management Systems
-

PROJECTS

Secure Password Vault (Major Project)

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Developed a secure web-based password management system for storing sensitive credentials and confidential user information.
- Implemented **AES encryption** for securing passwords, payment card details, bank details, and notes.
- Designed secure **authentication and account-locking mechanisms** with failed login protection and session timeout features.
- Built password management modules including add, edit, delete, and encrypted credential storage functionalities.

- Integrated password strength checker and secure password generation features to improve account security.
- Developed responsive user interfaces using HTML, CSS, and JavaScript for seamless user interaction.
- Designed relational databases using MySQL with optimized tables for secure data storage and management.
- Created complete project documentation including **SRS documentation, ER diagrams, DFDs, database schemas, and system design documentation.**
- Performed unit testing, integration testing, validation testing, and user acceptance testing for application reliability.
- Focused on cybersecurity concepts such as encryption, secure authentication, access control, and data confidentiality.

Personal Cybersecurity Website

Technologies: GitHub Pages, HTML, CSS

- Developed and maintained a cybersecurity-focused personal website for sharing technical resources and awareness content.
- Improved user engagement through structured web design and optimized content presentation.

Web Development Projects

Furniture Shop E-Commerce Website

- Developed a responsive e-commerce interface using HTML, CSS and JavaScript.

Bus Booking System

Technologies: PHP, HTML, CSS, JavaScript

- Built a functional bus booking system with booking and user management features.

CERTIFICATIONS

- Certified AppSec Practitioner (CAP)
- Basic CCNA Security – Charles Sturt University Short Course
- AWS Cloud Practitioner Essentials
- Google Digital Garage – Fundamentals of Digital Marketing
- Accounting Fundamentals

ACHIEVEMENTS

- Firewall Champion Award 2025 – Recognized for enterprise firewall and infrastructure security excellence.
- Participated as ISO 27001 Internal Auditor for information security compliance activities.
- Contributed to ISO 9001 Quality Management audit processes.

- Secured 7th Rank in University during BCA graduation.
 - Improved IT operational efficiency through automation and proactive monitoring solutions.
-

SOFT SKILLS

- Problem Solving
- Technical Troubleshooting
- Communication Skills
- Team Collaboration
- Time Management
- Analytical Thinking
- Adaptability
- Documentation & Reporting
